Alex

Cyber Security Graduate · BSc (Hons) First Class · MSc Cyber Security, Risk and Resilience

Contact via cyberalex.uk · Available immediately · Remote or local roles · Full UK driving licence

PROFILE

Cyber security graduate with hands on experience on both sides of the field: penetration testing, incident response and network security, alongside UK GDPR, risk and resilience. I've led a four person pen test team from the first client meeting to the final report, directed a five person incident response team through a live cyber drill, and attacked a vulnerable Windows machine from start to finish in a lab. Looking for work experience or a first role in a SOC, IT or GRC team, where I can put these skills to work and keep learning.

EDUCATION

MSc Cyber Security, Risk and Resilience · USW National Cyber Security Academy 2025 to 26

Final classification pending (dissertation result due November 2026). Distinctions in Leadership and Transformational Change; Legislation, Risk and Governance; Networking Technologies; Security Management and Incident Response. Merit in Crisis and Operational Resilience.

BSc (Hons) Computer Security, First Class Honours · University of South Wales 2022 to 25

Distinction in 9 of 16 modules, including Ethical Hacking, Secure Operations and Incident Management, Securing Data with Cryptography, Operating System Theory and the dissertation.

DISSERTATIONS

Privacy Nutrition Labels for UK Web Users · MSc, c.16,000 words 2026

Built a browser extension that uses an LLM to turn a website's privacy policy into a standardised label scored against UK GDPR, with every claim quoted and verified against the policy. Tested on four live policies, its labels agreed with a manual review on 23 of 24 criteria.

A Data Protection Framework for UK SMEs · BSc, c.10,000 words 2025

Built a free website turning UK GDPR obligations into guidance, templates and training for small businesses based on a survey of around 50 SMEs. The poster was selected for display at the 8th International Conference on Emerging Technologies in Computing (2025).

SKILLS

Security: penetration testing (Kali Linux, Nmap, Nessus, OpenVAS, Metasploit, Burp Suite), incident response and playbooks, log analysis, Ghidra, Wireshark, Autopsy

Governance: UK GDPR and DPA 2018, risk assessment, business impact analysis, business continuity (ISO 22301), NCSC CAF, NIST CSF, Cyber Essentials (mock assessment)

Systems: Windows Server and Active Directory, Linux servers with Docker, VMware lab networks, Cisco switching and VLANs, TCP/IP, DNS and DHCP

Programming: C++, basic Python, browser extension with LLM integration

Professional: pen test and incident reports, client presentations, formal minutes, Microsoft 365, LaTeX

LEADERSHIP

- **Course Representative**, elected three years running: sat on the Student Staff Course Liaison Group with the programme leader and lecturers, raised cohort issues and took the formal minutes.
- **Cyber Security Society**, committee lead: helped get a BCS student chapter running and helped write the constitution.
- **Undergraduate Mentor and Assessor** (2025): mentored a first year team, then sat on the panel marking their presentations.

INTERESTS

Cars: IAM Advanced and Masters, High Performance Course graduate; I service my own cars to OE specification and practise paint correction. **Photography:** studied at GCSE and A level; a selection is at lumasphere.art.
